

Bonferroni significant gene sets

modification-dependent protein catabolic process (GO:0019941)
 ubiquitin-dependent protein catabolic process (GO:0006511)
 metal ion transport (GO:0030001)
 monoatomic cation transport (GO:0006812)
 calcium ion homeostasis (GO:0055074)
 monoatomic cation homeostasis (GO:0055080)
 monoatomic ion homeostasis (GO:0050801)
 amide biosynthetic process (GO:0043604)
 peptide biosynthetic process (GO:0043043)
 multicellular organismal response to stress (GO:0033555)
 positive regulation of synaptic transmission (GO:0050806)
 regulation of synaptic plasticity (GO:0048167)
 RNA processing (GO:0006396)
 positive regulation of translation (GO:0045727)
 regulation of cell-substrate adhesion (GO:0010810)
 regulation of cold-induced thermogenesis (GO:0120161)
